

I am a proud citizen who makes monthly pledges to K-LOVE. It is a station we listen to in the car and in our home everyday. It is the station I wake up to in the morning to get my day started in a good direction. Losing K-LOVE in our community would be like telling us, the listeners, to close and put away our Bibles and never open or read them again. Believe it or not, there are still people in the world who care for their family and making sure that their children will grow up to have godly beliefs and values. K-LOVE, through the inspirational songs they play, their constant daily prayers, their encouraging words, and especially the heartfelt testimonies of other believers in which K-LOVE played a part of, is a great place to start in the direction in living the life God had intended my family and I to live. Please do not unplug the greatest Christian radio station I have come to know and love.

Sincerely,
Mylynne Bontilao
K-LOVE Listener
